

Version 7.1809

Date available on Pearson VUE Hosted Server: **Thursday, September 27, 2018**

Potential date available for Remote Deployment Installations:

 **Why is there a delay of releases for remote deployment installations?**
There is usually a slight delay of releases for remote deployment installations while code is compiled and packaged into an installer package.

 This list is a summary of **planned** changes for the release and the final list of changes included may be different. Please check back **after** the release date for the complete list of changes included.

 Please be sure to review the Known Issues page to see a list of any continuing defects seen in the application [HERE](#).
