

1.3.2 Change Your Password

You can update your password from the **User** section in the ExamDeveloper homepage.

To Change Your Password:

1. Click **Update Profile** in the **User** section of ExamDeveloper home page. You are directed to the **Update Profile** page.
2. The **Change Password** panel on the page can be used to change your password.

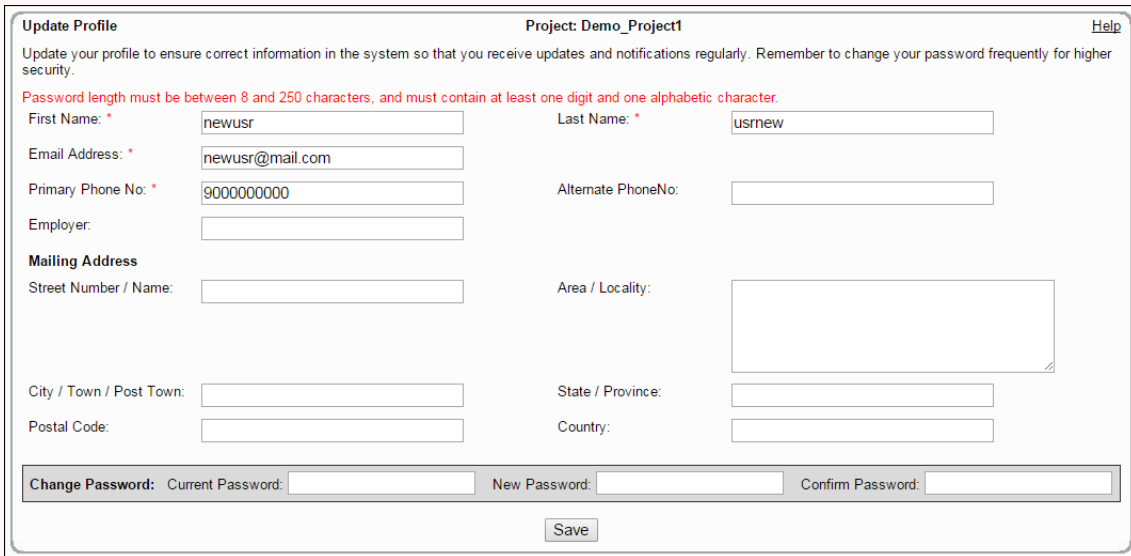

A panel titled "Change Password" with three input fields: "Current Password:", "New Password:", and "Confirm Password:". Below the fields is a "Save" button.

3. Enter your **Current Password**.
4. Enter your **New Password**.
5. Re-enter your new password in the **Confirm Password** field.
6. Click **Save** to update your new password.

An error message in **red text** is displayed if the password doesn't meet the application's criteria. The password length has to be **between 8 and 250 characters**, and must contain **at least one digit and one alphabetic character**.

Update Profile Project: Demo_Project1 [Help](#)

Update your profile to ensure correct information in the system so that you receive updates and notifications regularly. Remember to change your password frequently for higher security.

Password length must be between 8 and 250 characters, and must contain at least one digit and one alphabetic character.
