

7.2.5 Reviewer Status

This section displays details about each committee with an item Reviewer role and the status of the items associated with the project.

The screenshot shows the Observer Dashboard for the Vikys Project. The dashboard includes a navigation menu at the top with options like 'Develop Questions', 'Prepare Assets', 'Create Exam Form', 'Manage', 'Observe', 'Manage Item Bank', and 'View Item Bank'. Below the navigation, there are tabs for 'Users', 'Committees', 'Exam Forms', and 'View Questions'. The main content area displays the 'Observer Dashboard' for the 'Project: Vikys Project'. It includes a 'Select Report' section with radio buttons for 'Blueprint Level: Level 1', 'Metadata', 'Writers', 'Reviewers', and 'Validators'. The 'Reviewers' option is selected. Below this, it shows 'Start Date: 9/17/2018', 'Completion Date: 2/17/2019', and 'Days to Completion: 152'. A 'Show Reviewer Status -' link is present above a table with the following data:

Committee	# Reviewed	# Times They Accepted	# Times They Returned	# Times They Modified
Question Writers	--	--	--	5
Question Reviewers	1	--	1	--

The table may be split into various Review States, if present. It displays the following details of the committee:

Column	Description
Committee	The committee the reviewer has been assigned to.
# Reviewed	The number of items reviewed by the committee.
# Times They Accepted	The number of times the committee accepted items.
# Times They Returned	The number of times the committee returned items.
# Times They Modified	The number of times the committee modified items.

The "# Times They Returned" column header text may appear using different words, depending on the text provided in the **Return State Text** settings of the Item Bank's configuration.

Prior to the 1809 version, the default text was Reject. If you are working with Questions within an Item Bank that was created prior to the 1809 release, the text is named Reject unless you named it something else.
