

Version 7.1705

Date available on Pearson VUE Hosted Server: **June 1st, 2017**

Potential date available for Remote Deployment Installations: **June 9th, 2017**

Why is there a delay of releases for remote deployment installations?

There is usually a slight delay of releases for remote deployment installations while code is compiled and packaged into an installer package.

Are any import templates affected in this release?

There are no changes to import files in this release.

This list is a summary of **planned** changes for the release and the final list of changes included may be different. Please check back **after** the release date for the complete list of changes included.

Please be sure to review the Known Issues page to see a list of any continuing defects seen in the application [HERE](#).

Updates and New Features

Pages	Users Affected	Description	When does this happen?	Outcome	Type
Project Bank	Managers	The custom report reflects the option labeling based on project configuration.	Generating a custom report.	The custom report accurately reflects option labeling based on the project configuration.	Enhancement
Configuration > Project	Managers	Change Default Project Settings	When New Projects are created the default project configuration for assignment notification settings are OFF for Standard Notification and Due Date Notification.	On New Projects assignment notification emails will not occur. The Project Manager needs to turn on the desired setting for assignment notifications.	Enhancement
Exam Editor	Managers	Fixed Experimental Content : Change the title to Entry and Position from the Parameter	When adding Experimental Content to an exam the parameters of the tables title will appear as Entry and Position	Correction now reflects the QTI element and attribute for the experimental content parameters table.	Enhancement
Import Questions	Managers and Users with Manage Import permissions	Unable to import Display type items containing multiple exhibits.	<ol style="list-style-type: none"> 1. Login as manager and select active project 2. Navigate to manage > Import 3. Import the Questions.xml template having multiple exhibits added to display type item 	The import Question template, containing multiple exhibits now imports successfully.	Update

Import > Statistics	Managers or Users with the Manage import permissions	Inability to import statistics using the CSV template	Attempting to import statistics an error occurs: Candidate (N) column not found or missing data for option(s)	Issue remedied for null value and proper validation displayed	Update
