Version 7.1802

Date available on Pearson VUE Hosted Server: **February 22nd, 2018**

Potential date available for Remote Deployment Installations: **Estimate of March 9th, 2018**

> ⓘ **Why is there a delay of releases for remote deployment installations?**
> There is usually a slight delay of releases for remote deployment installations while code is compiled and packaged into an installer package.

> ⓘ This list is a summary of **planned** changes for the release and the final list of changes included may be different. Please check back **after** the release date for the complete list of changes included.

> ⚠ Please be sure to review the Known Issues page to see a list of any continuing defects seen in the application HERE.

Release Updates

Pages	Users Affected	Description	When does this happen?	Outcome	Type
Modify Questions	Project Managers, Reviewers	Item Weight not appearing for Constructed Response/Oral questions when weight is set.	For existing items that had an item weight specified for CR/Oral item type the weight established was not appearing. The value was not lost it was not visible. By selecting default and re-selecting item in the value field you could then see the appropriate established weight.	Users who modify existing and newly created CR/Oral items will be able to see the weight immediately when viewing this item type.	Fix
Project Settings	Project Managers	Remove G-Type as a Question Type	In the list of question types that were available for a project, G-Type (cases) was one of the options.	The option to allow cases in a project has been moved to a separate tab in the Project Settings.	Update

Exam Forms, Exam Section	Project Managers, Exam Build	Clone and Translate not functioning for Forms/Sections	It was found that the clone and translate feature was not functioning when attempting to translate a form/section with items that have a translated counterpart. Forms: Process would begin and instantly complete with no new form created or report downloaded. Sections: User would receive and exception and would be kicked out of the system.	The functionality has been restored on both the exam forms and exam section pages.	Fix
Exam Forms	Project Managers, Exam Build	R-Type options not appearing for published exam on Word Export	When exporting exams to word (either option) if exporting a published exam that contains R-type questions the response options for this item type were not appearing on the export.	Options will now appear on the word export for published exams for R-Type items.	Fix
Generate Reports	Project Managers, Manage Reports	Custom Report missing Case ID and Case name Data	It was found for reports exceeding 100 items that the Case ID and Case Name data was not being retrieved.	Case ID and Case name now returning on reports regardless of question number returned.	Fix
Exam Delivery Configuration	Project Managers, Exam Build	QTI Progress bar adjustments	The previous progress tracker for QTI exports was inaccurate at times and was causing a slight performance issue.	The text of the progress bar has been altered to say "The QTI package file is being exported. Please wait..." and the progress % has been removed. This has eliminated the inaccuracy of the previous progress bar and has slightly enhanced performance of the export.	Fix
Exam Delivery Configuration	Project Managers, Exam Build	Enemy items duplicated in the Itempool file	When exporting a QTI file and the setting to export enemies on the exam was selected, some enemies associations were exported twice	Corrected the export so that enemies are only shown once in the file	Fix
