

## 7.2.4 Writer Status

This section displays details about each committee with an item Writer role and the status of the items associated with the project.

The screenshot shows the Observer Dashboard for the Vikys Project. The dashboard includes a navigation bar with tabs for Develop Questions, Prepare Assets, Create Exam Form, Manage, Observe, Manage Item Bank, and View Item Bank. Below the navigation bar, there are sub-tabs for Users, Committees, Exam Forms, and View Questions. The dashboard displays the user's name (edvturmer) and last login time (09/18/18 01:26 PM). The main content area shows the Project: Vikys Project and a 'Show Writer Status' table. The table has the following data:

Committee	# Written	Questions Accepted	Questions Returned	Avg. Question Quality
Question Writers	4	--	1	--
Question Reviewers	--	--	--	--

The **Show Writer Status** table displays the following details of the committee:

Column	Description
<b>Committee</b>	The committee the Writer has been assigned to.
<b># Written</b>	The number of items written by the committee.
<b>Questions Accepted</b>	The number of accepted items written by the committee.
<b>Questions Returned</b>	The number of returned items written by the committee.
<b>Avg. Question Quality</b>	The average of the quality ratings assigned to the items written by the committee.

The "Question Returned" column header text may appear using different words, depending on the text provided in the **Return State Text** settings of the Item Bank's configuration.

Prior to the 1809 version, the default text was Reject. If you are working with Questions within an Item Bank that was created prior to the 1809 release, the text is named Reject unless you named it something else.
