

Version 7.1712

Date available on Pearson VUE Hosted Server: **January 2018**

Potential date available for Remote Deployment Installations: **Available January 12th, 2018 (PLEASE NOTE: If you are running SQL Server 2008R2 or older DO NOT upgrade to this release) There will be a fix for a code issue in the 7.1801 release**

Why is there a delay of releases for remote deployment installations?

There is usually a slight delay of releases for remote deployment installations while code is compiled and packaged into an installer package.

Are any import templates affected in this release?

There are no changes to import files in this release.

This list is a summary of **planned** changes for the release and the final list of changes included may be different. Please check back **after** the release date for the complete list of changes included.

Please be sure to review the Known Issues page to see a list of any continuing defects seen in the application [HERE](#).

Enhancements

Pages	Users Affected	Description	When does this happen?	Outcome	Type

Release Updates

Pages	Users Affected	Description	When does this happen?	Outcome	Type
Reports or Generate Reports	Project Managers or Users with Manage Reports permissions	Custom Report Notification exception	Several errors while displaying notifications (Notifications which are shown after Custom report gets generated) 1. System.InvalidOperationException -The connection was not closed. The connection's current state is open. 2. ExamDev.SignalR .NotificationsHub - An error occurred in AllMessagesAcknowledged	Custom report notifications have been corrected accordingly.	Fix

Export	Project Manager	Error when Exporting out an Exam	<p>Steps to Reproduce:</p> <ol style="list-style-type: none"> 1. Create Exam Form 2. View Exam 3. Check Form 4. Select Build QTI Package 5. Select Export 	Issue was resolved to export the exam if it contains items which have more than 40 analysis statistics	Fix
Export	Item Writer creating item / Project Manager exporting	Paste from Word Button Not translating correctly	When an Item is created in Microsoft Word, then imported into ED via the Paste from Word button, the original Word format is not rendering.	Able to compile and run QTI successfully	Fix
		Style attributes in P tags causing runtime error in Athena	When pasting table content into Rich Text Editor, HTML style attributes are resulting in runtime errors during compilation
