

# 1.3.2 Change Your Password

You can update your password from the **User** section in the ExamDeveloper homepage.

## To Change Your Password:

1. Click **Update Profile** in the **User** section of ExamDeveloper home page. You are directed to the **Update Profile** page.
2. The **Change Password** panel on the page can be used to change your password.

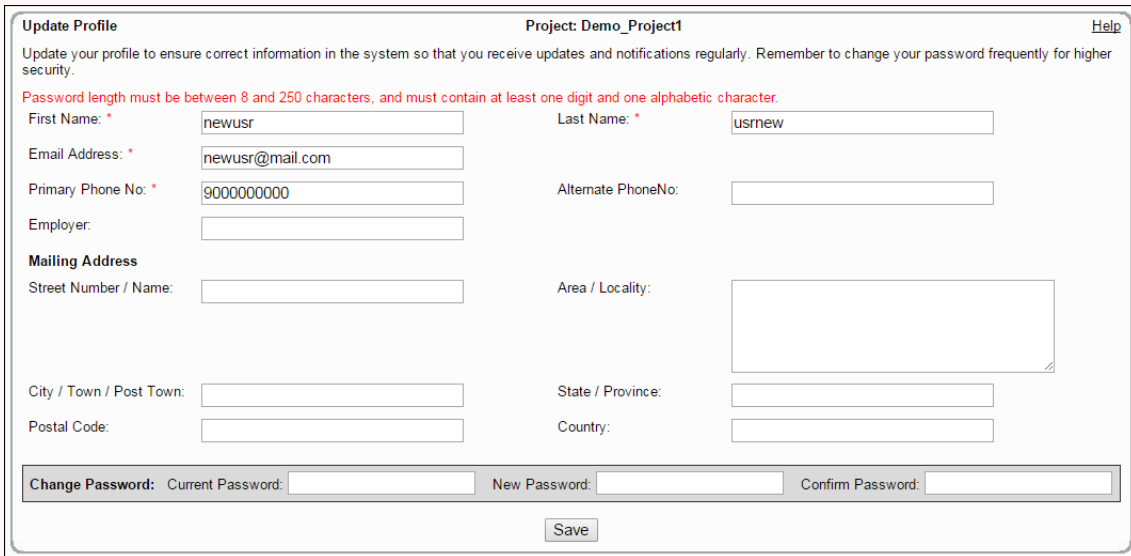

A rectangular panel with a light gray border. At the top, it contains three input fields: 'Current Password:', 'New Password:', and 'Confirm Password:'. Below these fields is a single 'Save' button centered horizontally.

3. Enter your **Current Password**.
4. Enter your **New Password**.
5. Re-enter your new password in the **Confirm Password** field.
6. Click **Save** to update your new password.

An error message in **red text** is displayed if the password doesn't meet the application's criteria. The password length has to be **between 8 and 250 characters**, and must contain **at least one digit and one alphabetic character**.

The 'Update Profile' form for 'Project: Demo\_Project1'. It includes a 'Help' link. A red error message is displayed: 'Password length must be between 8 and 250 characters, and must contain at least one digit and one alphabetic character.' The form contains several input fields: First Name (\*), Last Name (\*), Email Address (\*), Primary Phone No. (\*), Alternate PhoneNo, Employer, Mailing Address (Street Number / Name, Area / Locality, City / Town / Post Town, State / Province, Postal Code, Country), and a 'Change Password' section with 'Current Password:', 'New Password:', and 'Confirm Password:' fields. A 'Save' button is at the bottom.

7. You can use the new password the next time you log on to the application.
