

## 7.2.3 Metadata Assigned to Questions

The Project Manager may create metadata for the project which may or may not be mandatory. These metadata are used in items. Users can view reports based on the type of metadata.

The screenshot shows the Observer Dashboard for a project named "Blueprint". The dashboard includes a navigation bar with options like "Develop Questions", "Prepare Assets", "Create Exam Form", "Manage", "Observe", "Manage Item Bank", and "View Item Bank". Below the navigation bar, there's a user greeting "Welcome edvturmer (Last Login: 09/18/18 11:33 AM)" and links for "Home", "Tasks", and "Logout".

The main content area is titled "Observer Dashboard" and "Project: Blueprint". It contains a "Select Report:" section with a "Blueprint Level:" dropdown set to "Level 1". There are checkboxes for "Metadata" (checked), "Writers", "Reviewers", and "Validators". Below this, it shows "Start Date: 9/17/2018", "Completion Date: 2/17/2019", and "Days to Completion: 152".

There are four data tables, each with a title and a "Show" link:

- Show Demo for multiple entry text metadata Status -**: A table with 4 columns: Content, # Written, # Accepted, # Returned. Rows include "junk" and "stuff", both with "--" in the other columns.
- Show Drop-down List Status -**: A table with 4 columns: Content, # Written, # Accepted, # Returned. Rows include "Q1" and "Q2", both with "--" in the other columns.
- Show No Status -**: A table with 4 columns: Content, # Written, # Accepted, # Returned. Rows include "No" and "Yes", both with "--" in the other columns.
- Show Testing batch edit Status -**: A table with 4 columns: Content, # Written, # Accepted, # Returned. Row includes "Add metadata" with "--" in the other columns.

The **Metadata** table information is split based on the used metadata type and content such as block, keywords and language.

The table displays the following details of the project:

Column	Description
<b>Content</b>	The metadata contents created for the project and used in items.
<b># Written</b>	The number of items written for the corresponding metadata content.
<b># Accepted</b>	The number of items accepted for the corresponding metadata content.
<b># Rejected</b>	The number of items returned for the corresponding metadata content.

If you select the **Metadata** check box for a newly created project, then an error message in **red text** is displayed because the project contains no metadata content.

Develop Questions | Prepare Assets | Create Exam Form | Manage | **Observe** | Manage Item Bank | View Item Bank

Users | **Committees** | Exam Forms | View Questions

**Observer Dashboard** **Project: Test Metadata** [Help](#)

This page shows the status of the project. For more information about what is included in the tables below, click the "Help" link in the top right corner of the screen.

No metadata/ metadata contents available for this project.

Select Report:

Blueprint Level: Level 1 ▼

Metadata  Writers  Reviewers  Validators

Start Date: 9/18/2018      Completion Date: 2/18/2019      Days to Completion: 153

The "# Returned" State column header text may appear using different words, depending on the text provided in the **Return State Text** settings of the Item Bank's configuration.

Prior to the 1809 version, the default text was Reject. If you are working with Questions within an Item Bank that was created prior to the 1809 release, the text is named Reject unless you named it something else.
